DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hottovy (US 5,183,866) in view of Burns et al. (US 5,455,314) and Tanifuji et al. (US 5,462,998) for the same rationale as set forth in the previous Office Action mailed July 29, 2008.

Response to Arguments

2. Applicant's arguments filed July 29, 2008 have been fully considered but they are not persuasive.

It is the examiner's position that the secondary references, Burns and Tanifuji, applied in the rejections are for their teachings of removing the polymer slurry from the reactor through the ball valve and the ball valve disclosed in Tanifuji is 180° valve. Applicants' remarks are merely conclusion and fail to identify any errors in rejections of the record, thus, the rejections are still deemed proper and maintained.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1796

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
